

Carriage House Styles

Burton Garage Doors reflect the simplicity, functionality, and livability so closely associated with Carriage House Style.

Carriage House garage doors come in a wide variety of designs. Old-world charm combined with state-of-the-art technology makes it a smart choice.

These absolutely stunning designs are crafted like wood doors, but without the high maintenance associated with wood. These doors are manufactured with extruded aluminum and will never crack, rot, split or warp.

The simple lines typical of Carriage House Style are striking when painted to either complement or contrast your home's exterior.

Powder coat finishes

- Longest-lasting, most durable finish available
- Standard on Aluminum Collection doors
- Optional for Steel Collection doors
- Superior UV protection and corrosion resistance

Metallic Powder Coat Finishes

	Walnut Vein CS 3040		Copper Gold CS 3030		Desert Bronze CS 3010		Iron Glimmer CS 1045

	Slate Grey RAL 7015		Pure White RAL 9010		Brown Green RAL 6008		

Color samples will vary due to printer's color adjustments. For color accuracy, see actual color chips. All Steel and Copper doors have a wood grain texture. Aluminum doors are smooth.

Burton's Gloss Recommendation:

- 25% Gloss for smooth extruded aluminum doors
- 85% Gloss for wood grain textured steel doors
